

# New Media

## NA-900 MEMBRANE

### Setting new standards in all areas of filtration applications

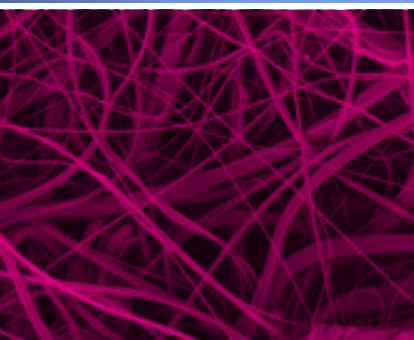

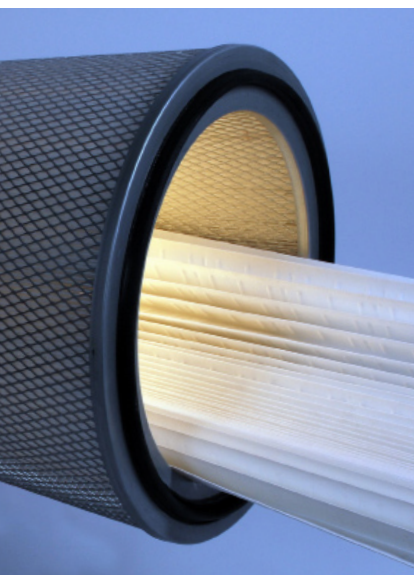

Nordic Air Filtration A/S are climbing to greater heights to meet the costumers needs for high efficiency cartridges.

Spunbond polyester media used in standard cartridges already exhibits qualities similar to to the NA-900 Membrane . However, very demanding applications like Powder Coating would benefit from the NA-900 Membrane's higher performance in these areas.

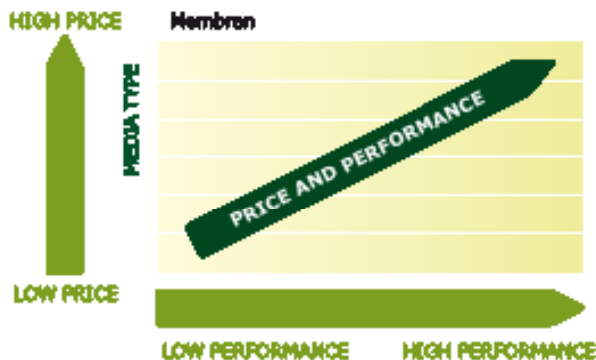

#### THIS IS WHAT YOU GET:

#### THE NAF NA-900 MEMBRANE HAVE THE FOLLOWING BENEFITS:

- Suitable for aggressive chemicals
- Reduced emissions and lower pressure drop
- Longer cartridge life and higher air-to-cloth ratios
- Reduced cleaning air consumption and fan energy savings.
- NA-900 Membrane will give the highest attainable filtration efficiency of any filter cartridge at the highest air-to-cloth ratios
- Higher air-flows

#### MEDIA TREATMENT

Highest filtration efficiencies (99.99+%) for lowest possible emissions

Excellent dustcake release on cleaning helps keep pressure drop low, helps maintain stable system operation

Reduced accumulation of particles for hassle-free collector operation

Greater airflow and/or lower energy consumption helps provide quick return on investment

Sub-micron filtration
